The Chase National Bank of the City of New York, Trustee

The following information is summarized from a letter dated May 8th, 1920, of Mr. Julius Lichtenstein, President of the American Sumatra Tobacco Company:

Property and Business: The Company is the foremost producer in the world of shade grown tobacco for cigar wrappers. It owns extensive plantations in Georgia, Florida, Connecticut and Massachusetts, aggregating 38,863 acres, nearly 10% of which is shade tented. It also owns 2,600 buildings, together with all the supplies and varied equipment necessary to operate the plantations independently. The Company also raises substantial amounts of sun grown tobacco and maintains a large organization for the merchandising of tobaccos. The gross business has increased over 2200% during the past ten years. The demand for the Company's products is largely in excess of any amount it is able to produce under present conditions.

Assets and Equity: After completion of this financing the net tangible assets will amount to approximately 370%, and the net current assets to approximately 200% of the present Note issue. Present market quotations for the Preferred and Common Stocks of the Company indicate an equity of about \$15,000,000 junior to this issue. These Notes constitute the only funded debt of the Company.

Earnings: Net earnings before taxes applicable to interest charges for the four years ending July 31, 1920 (31/2 months estimated) average more than 4.75 times the annual interest requirement on the notes, while such earnings for the year ending July 31, 1920 (31/2 months estimated) are equivalent to about 8.75 times such interest requirements.

Conversion: These Notes are convertible into common stock from October 1, 1920, to December 31, 1921, at the rate of nine and one-half shares of stock for each \$1,000 of Notes, and thereafter at the rate of nine shares of stock for each \$1,000 of Notes, subject to adjustment of interest and dividends. The common stock is now receiving dividends of 10% per annum. If called for redemption Notes may nevertheless be converted if presented at least ten days before the redemption date.

Sinking Fund: The Company will create and maintain a Sinking Fund and will pay into it annually, beginning June 1, 1921, a sum equal to five per cent. of the greatest aggregate face amount of Notes at any time outstanding. Face amount of Notes converted into stock will be credited toward Sinking Fund payments.

All legal matters connected with this issue will be subject to the approval of Messrs. Rushmore, Sisbee & Stern, and of Messrs. Feiner & Masss, both of New York, N. Y. The accounts are audited by Marwick, Mitchell & Co.

We offer the above Notes when, as and if issued and received by us and subject to the approval of counsel,
